

L&G ESG GBP Corporate Bond 0-5 Year UCITS ETF FUND SUPPLEMENT No. 36

A sub-fund of Legal & General UCITS ETF Plc, an umbrella investment company with variable capital and segregated liability between its Funds incorporated with limited liability in Ireland under registration number 459936.

The Company and the Directors, whose names appear on page 10 of the Prospectus, are the persons responsible for the information contained in this Fund Supplement and accept responsibility accordingly. To the best of the knowledge and belief of the Company and the Directors (who have taken all reasonable care to ensure that such is the case), the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of the information.

This Fund Supplement contains information relating to the L&G ESG GBP Corporate Bond 0-5 Year UCITS ETF (the “Fund”) which is a separate Fund of Legal & General UCITS ETF Plc (the “Company”), an umbrella fund with segregated liability between its Funds. This Fund Supplement forms part of and should be read in the context of, and together with, the Company’s Prospectus dated 23 February 2022 and any other applicable addenda. Investors should also refer to the Company’s latest published annual report and audited financial statements (if any) and, if published after such report, a copy of the latest semi-annual report and unaudited financial statements. Capitalised expressions used and not defined in this Fund Supplement shall bear the meanings as set out in the Prospectus. If you are in any doubt about the action to be taken or the contents of this Fund Supplement, please consult your stockbroker, bank manager, lawyer, accountant or other independent professional adviser who, if such advice is taken in the United Kingdom, is an organisation or firm authorised or exempted pursuant to the FSMA.

Potential investors should consider the risk factors set out in the Prospectus and in this Fund Supplement before investing in this Fund. An investment in the Fund involves certain risks and may only be suitable for persons who are able to assume the risk of losing their entire investment.

The Prospectus sets forth information on investment risk, management and administration of the Fund, valuation, subscription, redemption and transfer procedures and details of fees and expenses payable by the Fund and should be read subject to the information herein.

The date of this Fund Supplement is 23 February 2022.

INVESTMENT OBJECTIVE

The investment objective of L&G ESG GBP Corporate Bond 0-5 Year UCITS ETF (the “**Fund**”) is to provide exposure to the short term Pound Sterling-denominated investment grade corporate bond market.

INVESTMENT POLICY

In order to achieve this investment objective, the Fund will seek to track the performance of the J.P. Morgan Global Credit Index (GCI) ESG Investment Grade GBP Short-term Custom Maturity Index (the “**Index**”) subject to the deduction of the TER and other expenses associated with operating the Fund as further described in the “Fees and Expenses” section of the Prospectus. It will do so by investing primarily in an optimised portfolio of fixed income securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index. The Fund will utilise optimisation/representative sampling techniques in order to achieve the Fund’s investment objective, including by reducing overall transaction costs and taxes. In utilising such techniques, the Investment Manager will aim to identify and invest in a representative sample or sub-set of the component securities of the Index, whose risk and return characteristics closely resemble the risk and return characteristics of the Index as a whole. This is generally achieved through the use of quantitative analysis (i.e. application of mathematical rules-based analysis based on the risk and return characteristics of the Index components) with the level of sampling techniques used by the Fund being determined by the nature of the Index components. It is therefore not expected that the Fund will hold each and every underlying constituent of the Index at all times or hold them in the same proportion as their weightings in the Index.

Where consistent with its investment objective, the Fund may also invest in:

- transferable securities that are not component securities of the Index whose risk and return characteristics closely resemble the risk and return characteristics of constituents of the Index or of the Index as a whole. Such securities may include bonds issued by corporate, sovereign or quasi-sovereign issuers. Such instruments may be fixed and/or floating rate and may be of any credit rating or may be unrated; and
- FDIs namely, “unfunded” OTC Swaps, bond futures, corporate and sovereign credit default swaps (CDS), FX forwards and FX non-deliverable forwards (each described in more detail below) which may be used for investment purposes (such as gaining exposure to the Index and/or any particular constituents of the Index and/or to gain exposure to one or more currencies in which the Index constituents are denominated), hedging against movements of the currency in which a Share class is denominated relative to the currencies in which the Fund’s assets are denominated, where different (any such Share class hedging transactions will be undertaken in accordance with the Company’s currency hedging policy as set out in the section entitled “Hedging at Share class level” in the Prospectus) and for efficient portfolio management purposes in accordance with the terms set out in the sections entitled “*Fund Investments*”, “*Efficient Portfolio Management Techniques*”, “*Unfunded OTC Swap Model*” and Schedule II of the Prospectus. While the Fund may invest up to 100% of its Net Asset Value in total return “unfunded” OTC Swaps, it is not expected that this flexibility will be used. The Fund will only invest in FDIs as provided for in the RMP prepared by the Investment Manager in respect of the Fund and filed with the Central Bank.

The Fund may invest in the following FDIs:

“**unfunded**” **OTC Swaps**”, the Fund will receive the return of the Index (or relevant constituents thereof) from the counterparties in return for periodic payments from the Fund to such counterparties. As these swaps are “unfunded”, the cash received by the Fund from investor subscriptions is retained by the Fund (i.e. it is not transferred to the relevant counterparties as would be the case with a “funded” swap) and invested and managed in accordance with the arrangements described in the Prospectus.

“**bond futures**”, a contract to buy or sell a certain quantity of a bond at a pre-determined future date and at a price agreed through a transaction undertaken on an exchange. The Fund may purchase and sell bond index futures contracts for hedging, cash management, and efficient portfolio management.

“corporate and sovereign credit default swaps (CDS)”, a contract whereby a seller agrees to pay compensation to a buyer for the default of corporate or sovereign bonds in return for the buyer’s payment of a periodic fee. Should the Fund use CDS in the circumstances described above, the Fund may be a buyer or seller of the CDS. Where the Fund is a seller of CDS and there is a default on the underlying corporate or sovereign bond, the Fund would be obliged to compensate the CDS buyer for the loss on the corporate or sovereign bond in question, resulting in a reduction to the Net Asset Value of the Fund.

“FX forwards”, is a contractual agreement between the Investment Manager and a bank, or a non-bank provider, to exchange a pair of currencies at a set rate on a future date. The Fund may invest in FX forwards to reduce the currency risk in the Fund.

“FX non-deliverable forwards”, is a cash-settled, and usually short-term, contract to exchange a pair of currencies at a set rate on a future date.

The Fund may, in addition, employ other techniques relating to transferable securities, including entering into securities lending transactions, investing in repurchase and reverse repurchase transactions and short term money market collective investment schemes, for the purpose of efficient portfolio management only, in accordance with the terms set out in the section entitled *“Efficient Portfolio Management Techniques”* and Schedule II of the Prospectus. While the Fund may invest up to 100% of its Net Asset Value in repurchase and reverse repurchase transactions it is not expected that this flexibility will be used.

The maximum proportion of the Net Asset Value of the Fund that can be subject to securities lending is 15%. The proportion of the Net Asset Value of the Fund that will be subject to securities lending is expected to range from 0% to 15%.

TRACKING ERROR

The estimated anticipated (ex-ante) tracking error for the Fund in normal market conditions is 1.00% (annualised), which is the anticipated volatility of the difference between the return of the Fund’s portfolio and the return of the Index. Investors are specifically referred to the section headed “Tracking error” in the Prospectus.

The anticipated tracking error figure referenced above is in respect of an unhedged Share class as against the Index which is also unhedged.

SUSTAINABILITY

The Fund promotes a range of environmental and social characteristics. The characteristics promoted by the Fund are met by tracking an Index which includes the following features: (i) exclusion of issuers with revenue from thermal coal and UN Global Compact violators, as determined by the index provider’s methodology, (ii) a tilt towards issuers ranked higher on ESG criteria and green bond issues and (iii) underweighting and exclusion of lower ranking issuers. The Index is consistent with the environmental and social characteristics of the fund by providing exposure to such securities of issuers in accordance with the index methodology as set out in the *“Index description”* section below.

The Manager aims to ensure that the issuers of investments in which the Fund is invested follow good governance practices. This is achieved by 1) setting expectations with the issuers’ management with regard to good governance practices; 2) active engagement with the issuers; and 3) supporting policymakers and legislators to ensure a strong regulatory environment and standards. Active engagement with the issuers is used as a tool to drive progress and influence positive change and is conducted independently and in collaboration with industry peers and broader stakeholders. Engagement activities normally focus on specific material ESG issues and involve formulating an engagement strategy with regard to such issues with the aim to track and review the progress of the issuers during this process. Regular reporting on the outcomes of active engagement can be made available on request or can be found at: www.lgim.com.

TAXONOMY

While the Fund promotes environmental and social characteristics within the meaning of Article 8 of the SFDR, it does not currently commit to investing in “sustainable investments” within the meaning of the SFDR. Accordingly, it should be noted that the investments underlying this Fund do not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Regulation (EU) 2020/852 (the “**Taxonomy Regulation**”) and, as such, the Fund’s portfolio alignment with the Taxonomy Regulation is not calculated.

INDEX DESCRIPTION

The Index measures the performance of certain Pound Sterling-denominated investment grade corporate bonds, maturing within the next 3 months to 5 years and issued by emerging and developed markets issuers. Fixed rate, floating rate, hybrid (i.e. bonds which have a convertible feature, although the Fund will not invest in contingent convertible bonds (CoCos)), step-up (i.e. bonds which have increasing coupons), PIK (i.e. bonds which pay interest in additional bonds rather than in cash), toggle (i.e. bonds which offer the issuer the option to defer an interest payment by agreeing to pay an increased coupon in the future), amortizers (i.e. bonds which, in addition to the coupon payments, make partial repayment of the principal, meaning the principal amount outstanding is decreased over the bond's life), perpetuals (i.e. bonds which have a fixed coupon but have no maturity date), Sukuk bonds (i.e. bonds which comply with Islamic religious law) and all subordinated financial bonds (a class of bonds that rank lower than other types of bonds in terms of the priority acceded to their repayment in circumstances where the issuer of the bonds is liquidated) except AT1 qualify for inclusion in the Index. The Index is rebalanced on a monthly basis, on the last UK business day of the month. The Index includes investment grade bonds with a minimum amount outstanding of at least £300 million issued by issuers with a total amount outstanding of at least £750 million.

A bond is classified as investment grade when the middle rating or 2nd highest rating from S&P, Moody's and Fitch is investment grade (i.e. BBB- Equivalent or above). When a rating from only two agencies is available, the lower rating has to be investment grade; and when only one agency rates a bond, that single rating has to be investment grade.

The Index is designed to provide exposure to securities of issuers that satisfy certain environmental, social and governance (“**ESG**”) requirements, as defined by the index provider and as disclosed in the index methodology document. An ESG scoring and screening methodology is applied by the Index to tilt towards issuers ranked higher on ESG criteria and green bond issues, and to underweight and exclude issuers that rank lower. The Index applies J.P. Morgan ESG issuer scores (the “**JESG Scores**”), allocated on the basis of each issuer's adherence to ESG principles, to adjust the market value of index constituents. JESG Scores are a 0-100 percentile rank calculated based on ESG scores from third-party research providers. The JESG Scores incorporates a 3-month rolling average of the 3rd party ESG scores. Corporate issuers with no coverage by the third-party research providers default to their region-sector JESG Score. The Index excludes issuers with revenue from the following industries: (a) thermal coal; (b) tobacco; and (c) weapons. Issuers not in compliance with the UN Global Compact principles, as identified by third party research providers and issuers with JESG Scores less than 20 are also excluded. Each security in the Index is initially weighted according to market capitalisation, and its weighting is then adjusted based on the JESG scoring described above such that the total weight of all securities adds up to 100%.

The JESG Scores determine the ESG rating band to be allocated to the securities (the “**ESG Rating Band**”). Each issuer will be assigned an ESG Rating Band depending on their JESG Score between 1-5, with 5 being the worst. The ESG Rating Band is used to scale each issue's baseline index market value. Securities which fall into band 5 will be excluded from the Index and not eligible for inclusion for the following 12 months. If an instrument is categorized as a “green bond” by the Climate Bonds Initiative (an independent not-for-profit organisation providing a certification programme for bonds that contribute to addressing climate change), the security will receive a one-band upgrade. Green bonds by issuers already in Band 1 will not receive any further upgrades.

The Index is calculated in GBP.

Gross Total Return

Total return bond indices measure the market performance of bonds, taking into account both the movements in the market price of the bonds and any coupon (interest) payments declared thereon. The Index is a *gross* total return index which means that coupon (interest) amounts are treated as being reinvested into the Index *gross* (i.e. without adjustment for implied withholding taxes).

Portfolio Composition

The portfolio of Investments held by the Fund is available daily at www.lgim.com

PROFILE OF A TYPICAL INVESTOR

Only Authorised Participants may purchase ETF Shares in the Fund directly from the Company. All other investors may acquire or purchase ETF Shares only through the secondary market.

It is expected that investors in the Fund will be informed investors who have taken professional advice and who understand (and are able to bear) the risk of losing their investment and who can accept the levels of risks associated with investing in the fixed income market.

RISK MANAGEMENT

The Fund's global exposure, being the incremental exposure and leverage generated by the Fund through its use of FDI, shall be calculated on at least a daily basis using the commitment approach and, in accordance with the requirements of the Central Bank, may at no time exceed 100% of the Fund's Net Asset Value. As noted in the "*Investment Policy*" section above, the Fund's use of FDI is an ancillary element of the investment policy in that it is an alternative means of gaining exposure to the Index, or one or more of the constituents of the Index. Regardless of whether exposure to the underlying constituents is obtained by direct investment in the constituents, or by gaining exposure to the constituents through the use of FDI, the same notional value shall be committed to the investment by the Fund. Accordingly, it is not expected that the Fund will be leveraged.

RISK FACTORS

Investors are specifically referred both to the section headed “Risk Factors” and to Schedule II in the Prospectus and should consider all relevant risk factors prior to investing in the Fund, including those relating to investment in fixed income securities and emerging markets.

An investment in the Fund exposes an investor to the market risks associated with fluctuations in the Index and the value of securities comprised in the Index. The value of the Index can increase as well as decrease and the value of an investment will fluctuate accordingly. Investors can lose all of the capital invested in the Fund.

Hedged Share Classes

Currency-hedging transactions carried out in respect of any particular hedged Share class are designed to minimise the effect, on the returns of the relevant hedged Share class, of movements in the currency of denomination of the Index constituents relative to the “hedged” currency of the relevant hedged Share class.

Investors should only invest in a hedged Share class if they are willing to forego potential gains from appreciations in the currency of denomination of the Index constituents against the “hedged” currency of the relevant hedged Share class.

Currency hedging employed with respect to a hedged Share class aims to reduce currency risk rather than to eliminate it completely. Investors should also refer to the risk factor entitled “Currency” in the section of the Prospectus entitled “Risk Factors”.

THE SHARES

The Fund currently has eight classes of ETF Shares, as detailed in the table below. Additional classes of Shares may be added in the future in accordance with the requirements of the Central Bank.

Share Class	Share Class Type	Share Class Currency	Minimum Subscription / Redemption Amount	TER*	Dividend policy**

*Expressed as a % per annum of the Net Asset Value of the Share class.

**The Promoter shall maintain and publish on www.lgim.com a "Dividend Calendar" containing details of the proposed dates relating to the declaration and payment of dividends which may be amended from time to time.

Shares are freely transferable subject to and in accordance with the provisions of the Articles and as set out in the Prospectus.

As with other Irish companies limited by shares, the Company is required to maintain a register of Shareholders. ETF Shares will be held by the Common Depository's Nominee (as registered holder) in registered form. Only persons appearing on the register of Shareholders (i.e. the Common Depository's Nominee) will be a Shareholder. Fractional Shares will not be issued. No temporary documents of title or Share certificates will be issued (save for the Global Share Certificate, as set out in the Prospectus). A trade confirmation will be sent by the Administrator to the Authorised Participants.

DIVIDEND POLICY

Where the Company intends to declare dividends with respect to one or more classes of Shares of the Fund, the proposed frequency of such dividend declarations (for example, *quarterly* or *annually*) shall be as set out in the table included above in the section entitled "*The Shares*".

Where dividends are paid, they shall be paid out of the net income of the Fund which is attributable to the relevant class of Shares. Dividends payable in respect of any particular class of Shares shall be paid in the currency in which such Share class is denominated. Where the currency in which a Share class is denominated differs from the Base Currency of the Fund, dividends shall be converted into the relevant class currency and any costs associated with such conversion shall be charged to the relevant Share class.

Income Equalisation

The Manager may implement income equalisation arrangements with a view to ensuring that the level of distributions from distributing Share classes is not affected by the timing of the issue, switching or redemption of Shares during the relevant accounting period. As a result, the same fixed distribution amount per Share based on the distributable income of the Fund is paid on each Share of a distributing Share class at the end of the accounting period. Where income equalisation arrangements are applied, an equalization rate is calculated in respect of a Share at the date of the issue, switching or redemption of the Share to reflect the equalised part of income accrued, which is incorporated in the distributable income at the end of the accounting period.

Currency of Payment and Foreign Exchange Transactions

Where an investor requests that a dividend is paid in a major currency other than the currency in which the relevant Share class is denominated, any necessary foreign exchange transactions will be arranged by the International Central Securities Depository (subject to this option being made available by the relevant International Central Securities Depository) for the account of, and at the risk and expense of, the relevant investor.

STOCK EXCHANGE LISTINGS

As at the date of this Fund Supplement, the following classes of ETF Shares have been admitted to trading on the stock exchanges listed below. Applications for the admission to additional stock exchanges of existing and new classes of ETF Shares may be made from time to time.

DEALING PROCEDURES

The procedures for subscribing for and redeeming of Shares are outlined in the Prospectus. Subscriptions and redemptions in the Fund may be in cash or, where agreed with the Manager or its delegate, on an *in specie* basis.

Shares may be subscribed for in the manner set out in the Prospectus under the heading “*Subscriptions*”, beginning on page 54.

Shares in the Fund may be redeemed as described in the Prospectus under the heading “*Redemptions*” beginning on page 60.

In the context of each application for subscription for or redemption of Shares, the Manager (or its appointed delegate) shall have sole discretion as to whether Duties and Charges are charged as a fixed amount or charged to match the exact cost to the Company of purchasing or selling the relevant underlying Investments. Where Duties and Charges are charged as a fixed amount, such fixed amount shall not exceed 5% of Net Asset Value of Shares being applied for or redeemed.

DEALING INFORMATION

Base Currency	GBP
Dealing Currency	The dealing currency for each class of Shares is the currency of denomination of the relevant class of Shares.
Business Day	A day on which banks and markets and exchanges are open for business in the United Kingdom.

Dealing Day	An Index Publication Day and a day on which no Significant Markets are closed for business or such Business Day(s) as the Directors may from time to time determine (subject to advance Shareholder notice) for dealings in the Fund provided always that there shall be at least one Dealing Day each fortnight. The Promoter maintains an online “ <i>Dealing Day Calendar</i> ” at: www.lgim.com , where advance notice of all expected Dealing Days for the Fund is published on an ongoing basis. The Dealing Day Calendar is also available on request from the Manager and from the Promoter.
Dealing Deadline	The cut-off time in respect of any Dealing Day for receipt of applications for subscriptions and redemptions in the Fund as shall be set out on www.lgim.com , which information shall be kept up to date.
