L&G Ecommerce Logistics UCITS ETF

Share Class USD Accumulating ETF - ISIN: IE00BF0M6N54. The Fund is a sub-fund of Legal & General UCITS ETF Plc (the "Company").
Managed by LGIM Managers (Europe) Limited, a member of the Legal & General group (the "Manager")

OBJECTIVES AND INVESTMENT POLICY

- The L&G Ecommerce Logistics UCITS ETF (the "Fund") is a passively managed exchange traded fund ("ETF") that aims to track the performance of the Solactive eCommerce Logistics Index Net Total Return (the "Index"), subject to the deduction of the ongoing charges and other costs associated with operating the Fund.
- Dealing.** Shares in this Share Class (the "Shares") are denominated in USD and can be bought and sold on stock exchanges by ordinary investors using an intermediary (e.g. a stockbroker). In normal circumstances, only Authorised Participants may buy and sell Shares directly with the Company. Authorised Participants may redeem their Shares on demand in accordance with the "Dealing Timetable" published on <http://www.lgim.com>.
- Index.** The Index is comprised of companies which are publically traded on various stock exchanges around the world that provide (i) "logistics" services (i.e. the warehousing of goods or the fulfilment and delivery of goods) or (ii) software solutions to companies that provide logistic services in connection with "ecommerce" (i.e. the buying and selling of goods on the internet). A company is only eligible for inclusion in the Index if (1) it is of a sufficient size (determined by reference to the total market value of the proportion of its shares that are publically traded) and (2) it is sufficiently "liquid" (a measure of how actively its shares are traded on a daily basis). The universe of companies out of which the Index selection is made is refreshed annually in April. However, the Index is reconstituted semi-annually in April and October in accordance with the full selection criteria and all companies are equally weighted within the Index. On a monthly basis, the weight of each company is assessed and, if any of them exceeds 15% of the Index, the weights of all companies are adjusted so that they are again equally weighted within the Index.
- Replication.** The Fund will primarily invest directly in the securities represented in the Index in similar proportions to their weightings in the Index. The fund may also invest in (1) logistic companies that are not constituents of the Index that have similar risk and performance characteristics to the companies contained in the Index and (2) financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on the companies contained in the Index and/or such other logistic companies). Adjustments to the Fund's portfolio, including as a result of a reconstitution of the Index, will incur transaction costs.
- Dividend Policy.** This Share Class does not intend to pay dividends. Any income which may result from the Fund's investments will be re-invested into the Fund.

RISK AND REWARD PROFILE

Lower risk ← Higher risk
Potentially lower rewards Potentially higher rewards

1	2	3	4	5	6	7
---	---	---	---	---	---	---

- The Fund is rated 6 due to the nature of its investments and its risks. The rating is calculated based on historical data and may not be a reliable indication of the Fund's future risk profile. The risk category may shift over time. The lowest category on the above scale does not mean "risk free".
- As the Index includes micro, small and medium-sized publicly traded companies, the Fund is subject to the risk that such companies may be more vulnerable to adverse business or economic events and greater and more unpredictable price changes than larger companies or the stock market as a whole.
- Companies that provide logistics services or software solutions to logistic service providers in connection with ecommerce are particularly vulnerable to changes in business cycles and general reductions in

consumer spending resulting from recession or other economic factors. Such factors could lead to a decline in the value of the companies represented in the Index and therefore the Fund.

- Third party service providers (such as counterparties entering into FDIs with the Fund or the Company's depository) may go bankrupt and fail to pay money due to the Fund or return property belonging to the Fund.
- If the Index provider stops calculating the Index or if the Fund's license to track the Index is terminated, the Fund may have to be closed.
- It may not always be possible to buy and sell Shares on a stock exchange or at prices closely reflecting the NAV.
- There is no capital guarantee or protection on the value of the Fund. Investors can lose all the capital invested in the Fund.
- Please refer to the "Risk Factors" section of the Company's Prospectus and the Fund Supplement.

CHARGES FOR THE FUND

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential return from your investment.
